Program Description

This program provides individuals with disabilities inclusive recreational activities and experiences that can be expected to aid them in their employment, mobility, socialization, independence, and community integration. Project periods last three years and the federal share of costs is 100 percent in year one, 75 percent in year two, and 50 percent in year three. Projects must maintain, at a minimum, the same level of services over the three-year project period and assure that the service program awarded will be continued after the federal assistance ends.

Types of Projects

Recreation projects may include vocational skills development, leisure education, leisure networking, leisure resource development, physical education and sports, scouting and camping, 4-H activities, music, dancing, handicrafts, art, and homemaking. When appropriate and possible, these programs and activities should be provided in settings with peers who are not individuals with disabilities.
